

## Birth Records of Hickman County, Kentucky (1852-1854)

*Abstracted by James Pylant*

Kentucky's Hickman County was created in 1821 from Caldwell and Livingston counties. While statewide registration of births and deaths did not begin until 1 January 1911, vital records for Hickman County began in 1852. The following births include the date of birth, name of infant, place of birth (if other than Hickman County), name of father, full maiden name of mother, and residence of parents (if other than Hickman County). Parentage is not stated for slaves--only the name(s) of owner(s). Source: *Kentucky Births, Marriages and Deaths*, Film No. S000082, Kentucky State Historical Society, Frankfort, KY.
